

Placement Policy

SYNTHETIC DATA: generated for development and testing, not an official AMYPO document.

Eligibility

Each company sets its own criteria: a minimum CGPA, a maximum number of standing backlogs, a minimum attendance and a list of required skills with a minimum proficiency on a 0 to 5 scale. Some companies also accept only certain branches. A student is eligible for a drive only if all criteria are met.

One-Offer Rule

A student who accepts a job offer is not eligible for further placement drives. This keeps opportunities open for students who are not yet placed.

Dream Company Exception

A placed student may apply to one dream company drive. A dream company is one that offers a CTC of at least Rs. 10 LPA. If selected, the student must give up the earlier offer.

Registration and Training

Students must register on the placement portal by July 31 of the final year. At least 80% attendance in placement training sessions is required to take part in drives.

Conduct

A student who backs out after accepting an offer is debarred from all further drives. Students must report 30 minutes before the drive in formal dress with their college ID card.
